ONE ROOM. EVERY LAYER OF THE FINTECH STACK.

The AI Summit brings together the people building the future of finance - and the next generation stepping into it. A full day of candid CEO conversations, hands-on AI building and the kind of introductions that change a career trajectory.

● CEO Panels

Founders and C-suite leaders on how they got there - and how AI is reshaping every function from product to sales.

● Workshops + Fireside Chats

Practical sessions on the skills that separate average candidates from high-impact hires.

● AI Hackathon

Coders and non-coders build real solutions with frontier AI tools, supported by mentors from across the industry.

● Structured Networking

Not passive networking - learn how to approach leaders, what to ask and how to follow up properly.

● Dragons' Den Pitches

Teams pitch their builds to a judging panel of founders and operators for prizes that open doors.

● Drinks + After-Party

The day closes with prizes, celebration and the conversations that carry on long after.

DATE

Fri 28 Aug 2026

08:30 - late

18:15 18:30	Hackathon Prizes & Wrap-up Matt Cheung , Work in Fintech · payabl
18:35 - 22:00	AFTERPARTY: CHEERS TO FINTECH Drinks, celebration and the conversations that carry on long after the last pitch. Meet the speakers, mentors and founders in a relaxed setting - the introductions that turn into internships, mentors and job offers usually happen here.

THE HACKATHON

Using real AI tools, the hackathon is open to coders and non-coders alike. You will be placed into teams before the event, with a pre-event webinar to sharpen your skills, then pitch your solution to industry judges.

How it works

Teams are formed three weeks before the event and paired with mentors. A pre-event webinar and onboarding doc help everyone get up to speed on the tools.

On the day, you will have 3 hours to work with your team to finish your app and polish your pitch. You'll be supported by your mentor, who may be one of the founders or CEOs speaking on the day. The strongest teams then pitch to a judging panel of fintech founders and industry leaders, who choose winners on creativity, impact, use of AI and go-to-market potential.

WHAT WINNING TEAMS TAKE HOME

Internships & insight days with leading fintechs

Mentoring sessions with founders and operators

CV workshops and interview preparation

Exclusive tickets to industry events

Full prize details will be announced nearer to the event.

Before the day

Watch the prep video, read the onboarding doc, join the [WhatsApp group](#) and follow Work in Fintech on LinkedIn. Start your challenge early to maximise your time on the day - it is the single biggest predictor of winning.

PAST WINNERS

REAL RESULTS, REAL HACKATHONS

Previous Work in Fintech hackathon winners have landed internships and insight days with **LSEG**, **BMLL**, **Rimes**, **Kepler Cheuvreux**, **Parameta** and **ipushpull**, plus the opportunity to pitch at **Web Summit Lisbon** and the **Doers Summit** in Athens.
